

## CONTENTS

<b>Letter of Welcome</b> .....	viii
<b>Proceedings Order Form</b> .....	ix
<b>Program</b> .....	x
<b>Extended Abstracts of Lecture and Poster Presentations</b> .....	1
(alphabetical by senior author)	
<b>An Example of Carbonate Biosynthesis in Karst</b> Jean-Pierre Adolphe, José Paradas and François Soleilhavoup .....	2
<b>Methodology Development and Preliminary Field Assessment of Host-Specific Viruses as Tracers in Shallow Karst Aquifers</b> Van Brahana and Dorothy Walters.....	2
<b>Microbial Ecology of <i>Thiothrix</i> Spp. in the Floridan Aquifer</b> R.L. Brigmon, H.W. Martin, and S.G. Zam .....	4
<b>Classification of Cave Gypsum Deposits Derived from Oxidation of H<sub>2</sub>S</b> Marcus J. Buck, Derek C. Ford, and Henry P. Schwarcz.....	5
<b>Bacterially Induced Precipitates of Calcium Carbonate: Habit and Mineralogy</b> Henry S. Chafetz.....	9
<b>Elemental Sulfur in Caves of the Guadalupe Mountains, New Mexico</b> K.I. Cunningham, H.R. DuChene, C.S. Spirakis, and J.S. McLean.....	11
<b>Terrestrial Hypogenic Caves: Possible Analogs to Subterranean Martian Autotrophic Ecosystems</b> K.I. Cunningham, H.R. DuChene, J.S. McLean, and C.S. Spirakis.....	12
<b>Bacterial and Fungal Habitation in Lechuguilla Cave, Carlsbad Caverns National Park, New Mexico - Possible Biologic Origin of Condensation-Corrosion Residues</b> K.I. Cunningham, D.E. Northup, R.M. Pollastro, W.G. Wright, and E.J. LaRock .....	13
<b>Redox Geomicrobiology - Microbial Systems, Processes, and Products</b> Henry L. Ehrlich.....	14
<b>The Search for Carbonates on Mars</b> Jack D. Farmer, and David J. Des Marais.....	16
<b>Nannobacteria: Major Participants in the Precipitation of Carbonates and Other Minerals</b> Robert L. Folk .....	17
<b>Caves of the Mesa Del Oro Travertine, New Mexico, U.S.A.</b> Jeffrey Forbes.....	18
<b>The Role of Sulfate-Sulfide Reactions in Gypsum Speleogenesis</b> Paolo Forti.....	21

<b>Thermal Karst Systems</b>	
Paolo Forti.....	23
<b>Viable, but Unculturable Bacteria in Deep Vadose Zone Sediments: Development of Methods for Detecting Microbial Life in Terrestrial Environments at Low Population Density</b>	
W.C. Ghiorse.....	24
<b>Sulfur Redox Reactions: Hydrocarbons, Native Sulfur, Mississippi Valley-Type Deposits, and Sulfuric Acid Karst, Delaware Basin, New Mexico and Texas</b>	
Carol A. Hill.....	25
<b>Microbially Produced Carbon Dioxide and Studies on its Effect on Speleogenesis</b>	
Julia M. James .....	28
<b>Amino Acids - A Fingerprint for Cyanobacteria in Stromatolitic Speleothems</b>	
Julia M. James, E. Patsalides, and G.C. Cox.....	30
<b>Microorganisms in Australian Caves and their Influence on Speleogenesis</b>	
Julia M. James .....	31
<b>The "Mysterious" Calcite-Precipitating Organism of the Nullarbor Caves, Australia</b>	
Julia M. James and Peter Rogers.....	34
<b>Nitrogen Isotope Analyses of High-Nitrate and Other Karst Waters and Leached Sediments at Friar's Hole Cave, West Virginia</b>	
Roy A. Jameson, Douglas G. Boyer, and E. Calvin Alexander, Jr.....	36
<b>Chemoautotrophy: Methodological Approaches, Geological Implications, and a Case Study from Southern Romania</b>	
Thomas C. Kane, Serban Sarbu, and Brian K. Kinkle .....	38
<b>Speleogenesis in Gypsum and Geomicrobiological Processes in the Miocene Sequence of the Pre-Carpathian Region</b>	
Alexander Klimchouk.....	40
<b>Paleokarst: A Window to Life on Land in the Precambrian</b>	
L. Paul Knauth.....	42
<b>A Model of Speleogenic Processes Connected With Bacterial Redox in Sulfur Cycles in the Caves of Kugitangtou Ridge, Turkmenia</b>	
V. Korshunov and A. Semikolennyh.....	43
<b>Microbiological Activity in Thermoglacial Karst Springs in Spitsbergen</b>	
Stein-Erik Lauritzen .....	44
<b>Distributional Survey of Actinomycetes in a Limestone Cave and a Lava Tube Cave</b>	
Kathleen H. Lavoie and Diana E. Northrup .....	44
<b>H<sub>2</sub> Concentrations in Anoxic Ground Water: A Non-Equilibrium Framework for Elucidating the Distribution of Microbially Catalyzed Redox Reactions</b>	
Derek R. Lovley, Francis H. Chapelle and Joan C. Woodward .....	46
<b>Geochemistry of Fluorite and Other Features in the Kugitangtou Ridge Caves, Turkmenia</b>	
V. Maltsev and V. Korshunov.....	47

<b>Sulfur Geochemistry and Limestone Dissolution in Coastal Yucatan Cenotes</b> Lauren Marcella, Ezat Heydari, Ronald K. Stoessell, and Martin Schoonen .....	48
<b>Biogeochemistry of Sulfide Oxidizing Bacteria in Phreatic Karst</b> H.W. Martin and R.L. Brigmon.....	49
<b>Microbiology of Lower Kane Cave, Wyoming</b> R. Mark Maslyn and James A. Pisarowicz.....	52
<b>When Will We Have an Accepted Explanation for Cave Nitrate Deposits?</b> George W. Moore.....	53
<b>Microbial Processes and Cave Development in the Freshwater Lens of a Quaternary Carbonate Island, San Salvador, the Bahamas</b> John E. Mylroie, James L. Carew, Simon H. Bottrell, and William J. Balcerzak.....	54
<b>Oxidation/Reduction Environments, Residence Times, and Anthropogenic Compounds in the Prairie Du Chien-Jordan Aquifer</b> David A. Nemetz, Scott C. Alexander, and E. Calvin Alexander, Jr.....	55
<b>Molecular Methods for Microbial Ecosystems Analysis</b> Norman R. Pace.....	56
<b>Sulfate-Induced Diagenesis in the Madison Aquifer of South Dakota</b> Margaret V. Palmer and Arthur N. Palmer .....	57
<b>Bacteriological Observations as a Tool in Karst Hydrogeology</b> Rudolf Pavuza .....	58
<b>Travertine-Forming Cyanobacteria</b> A. Pentecost .....	60
<b>Cueva De Villa Luz - An Active Case of H<sub>2</sub>S Speleogenesis</b> James A. Pisarowicz .....	60
<b>Influence of Thermal Atmospheric Convection on the Nature and Distribution of Microbiota in Cave Environments</b> J. Michael Queen.....	62
<b>Speleogenesis in the Guadalupe: The Unsettled Question of the Role of Mixing, Phreatic or Vadose Sulfide Oxidation</b> J. Michael Queen.....	64
<b>A Conceptual Model for Mixing Zone Diagenesis Based on the Hydrogeology of Bermuda</b> J. Michael Queen.....	65
<b>Calcium Carbonate Formation in Pyramid Lake, Nevada</b> Michael M. Reddy .....	67
<b>The Effect of Past Changes in Sea Level on Sulfur Redox Reactions and Karst Formation in Coastal Limestone Regions</b> Ronald K. Stoessell.....	69
<b>Transformation of Volatile Organosulfur Compounds in Hot Spring Microbial Mats</b> D.L. Stoner.....	69

<b>The Role of Unicellular Cyanobacteria in the Origin of Lacustrine Whiting Events and Various Microbialite Structures, Elucidated by Isotopic and Transmission Electron Microscopic Evidence</b> Joel B. Thompson.....	70
<b>Characterization of Microorganisms in a Sulfide-Rich Groundwater System</b> Luminita Vlasceanu and Brian K. Kinkle.....	71
<b>Bacterially Mediated Oxidation of Organic Matter: A Major Control on Groundwater Geochemistry and Porosity Generation in Oceanic Carbonate Terrains</b> Fiona F. Whitaker and Peter L. Smart.....	72
<b>Thermodynamic Equilibrium, Kinetics, Activation Barriers, and Reaction Mechanisms for Chemical Reactions in Karst Terrains</b> William B. White.....	74
<b>Role of Humic and Fulvic Acids in the Transport and Deposition of Calcium Carbonate in the Unsaturated Zone</b> William B. White, Steven M. Smailer, and Edward S. Brennan.....	75
<b>Dissolution of Limestone in the Saline-Freshwater Mixing Zone due to Anoxic Conditions - A Case Study: Isla De Mona, Puerto Rico</b> Carol M. Wicks and Joseph W. Troester.....	75
<b>Cenote Verde: A Meromictic Karst Pond, Quintana Roo, Mexico</b> William L. Wilson and Thomas L. Morris.....	77
<b>The Possible Importance of Sulfur Minerals in Initiating Epigenic Caves</b> Stephen R.H. Worthington.....	80
<b>Geologic And Field Trip Guides.....</b>	83
<b>A Brief Review of the Geologic Setting of the Pikes Peak Region</b> Louise D. Hose.....	84
<b>Speleogenesis of Cave of the Winds, Manitou Springs, Colorado</b> Fred G. Luiszer.....	91
<b>Author Index.....</b>	110
<b>Map of Conference Facility.....</b>	111
