

## TABLE OF CONTENTS

### KEYNOTES

#### Speleothems, what do they tell us about climate, the timing of climate change, and the migration of desert borders

*M. Bar-Matthews, A. Ayalon, A. Vaks, A. Frumkin, B. Schilman, A. Almogi-Labin, and A. Matthews* ..... 1

#### Speleothems as recorders of flooding and insights into the Earth's hydrologic cycle

*J. A. Dorale* ..... 3

#### Speleophysiology: a key to understanding high-resolution information in speleothems

*I. Fairchild, A. Baker, L. Fuller, A. Borsato, R. Miorandi, S. Frisia,  
D. Mattey, E. McMillan, C. Spötl, B. Andreo, I. Vadillo, and F. Carrasco* ..... 4

#### Unfinished businesses

*D. Ford* ..... 6

#### Speleothem geochronology and climate change: practice and prospects

*D. A. Richards, P. L. Smart, and D. L. Hoffmann* ..... 7

#### The importance of the Romanian karst for modern human origins research

*J. Zilhão* ..... 8

### PRESENT-DAY KARST ENVIRONMENTS

#### Variations in dissolved organic carbon of cave drip waters in Shihua Cave, Beijing

*F. Ban, M. Tan, B. Cai, and G. Pan* ..... 11

#### Geochemistry of warm spring water in North Springs of Chongqing: Water source and its relation to travertine formation in the past

*Y. Cao, H. Li, Z. Liu, D. Yuan, and L. Shen* ..... 13

#### Thickness and stable isotopic characteristics of modern seasonal climate-controlled sub-annual travertine laminae in a travertine-depositing stream at Baishuitai, SW China: implications for paleoclimate reconstruction

*Z. Liu, H. Li, C. You, N. Wan, and H. Sun* ..... 15

#### The influence of bedrock depth on the hydrochemistry of cave drip waters from a karst system in southeastern Australia

*J. McDonald, R. Drysdale, D. Hill, R. Chisari, and H. Wong* ..... 16

**Long-term drip-rate monitoring at Grotta di Ernesto (Trentino, NE Italy): hydrological aspects***R. Miorandi, A. Borsato, and S. Frisia* ..... 20**Drip water monitoring results from a cave in Peruvian Amazonia***M. R. van Breukelen, H. B. Vonhof, and D. Kroon* ..... 23**The contrast in isotopic composition of cave ice across the divide in Western North America***C. J. Yonge and W. D. MacDonald* ..... 26**KARST EVOLUTION, KARST MODELING, PALEOKARST****Stalagmite growth dynamics in Katerloch Cave (Austria)***R. Boch and C. Spötl* ..... 30**Growth pattern and depositional feature of stalagmites in the karst region of Chongqing, SW China: climatic implications***X. He, J. Wang, H. Li, H. Cheng, and D. Yuan* ..... 31**Damaged speleothems record 200,000 years of earthquake activity: Dead Sea transform region***E. Kagan, M. Bar-Matthews, A. Ayalon, and A. Agnon* ..... 33**Naturally damaged speleothems, indicators of glacial cave ice in Central Europe***S. Kempe, D. Döppes, I. Bauer, H. Dirks, I. Dorsten, A. Hüser, and A. Eisenhauer* ..... 35**Records of catastrophic events on speleothems: case studies from the Rhodopes, Southern Bulgaria***K. Kostov, S. Shanov* ..... 36**U-Pb dated laminated speleothems from the western Austrian Alps: constraints on Pliocene to Early Pleistocene climate variability and uplift***M. Meyer, R.A. Cliff, and C. Spötl* ..... 39**Quaternary deposits in Orlova Chuka Cave, NE Bulgaria***A. Radulov* ..... 41**Underground glaciers and climate change: *Velika ledena jama* in Paradana Nature Reserve***D. Rojšek* ..... 45**The origin of the calcite speleothems in Yongcheon and Dangcheomul Lava Tubes, Jeju Island, Korea: their sedimentological significance and potential for the World Heritage nomination***K. S. Woo, K. C. Lee, and I. S. Son* ..... 47**NEW TECHNIQUES AND INSTRUMENTAL ADVANCES****Visualization of elemental distributions using high-spatial resolution, large-area X-ray maps of a stalagmite***M. G. Bersch, V. Murgulet, and P. Aharon* ..... 49

<b>Variation of drop volume with stalactite geometry and drip rate: investigations using a new acoustic drop counter</b>	
<i>C. Collister and D. Matthey</i> .....	52
<b>Long-term reproducibility and accuracy of MC-ICP-MS speleothem dating</b>	
<i>J. Hellstrom</i> .....	55
<b>Hyperspectral imaging of stalagmites</b>	
<i>C. Jex, E. Claridge, A. Baker, and C. Smith</i> .....	56
<b>Microstratigraphic logs: a method for improving time correlation of speleothems for paleoclimatic studies</b>	
<i>M. B. Muñoz-García, J. Martín-Chivelet, C. Rossi, H. P. Schwarcz, and Derek C. Ford</i> .....	60
<b>Measurement of stable isotopes in speleothem fluid inclusions by continuous flow mass spectrometry</b>	
<i>P. Rowe, A. Marca-Bell, and P. Dennis</i> .....	64
<b>Investigation of the fractionation of stable isotopes in speleothems with laboratory experiments</b>	
<i>D. Scholz, E. Wiedner, A. Mangini, and R. März</i> .....	65
<b>Evolutionary spectral analysis of climatic cycles in speleothem records from North Italy</b>	
<i>D. Stoykova, Y. Shopov, U. Sauro, A. Borsato, S. Frisia, F. Cucchi, and P. Forti</i> .....	67
<b>A continuous-flow crushing device for on-line <math>\delta^2\text{H}</math> and <math>\delta^{18}\text{O}</math> analysis of fluid inclusion water</b>	
<i>H. B. Vonhof, M. R. van Breukelen, and O. Postma</i> .....	68
<b>U-Pb geochronology of speleothems by MC-ICPMS</b>	
<i>J. Woodhead, J. Hellstrom, R. Maas, R. Drysdale, G. Zanchetta, P. Devine, and E. Taylor</i> .....	69
<b>Use of Helium flow in retrieving fluid inclusions from speleothems</b>	
<i>R. Zhang, H. P. Schwarcz, and D. C. Ford</i> .....	72
<b>CLIMATE RECONSTRUCTIONS</b>	
<b>Is solar forcing a controlling factor of ENSO variability?</b>	
<i>P. Aharon, M. S. Rasbury, W. J. Lambert, L. Lambert, and B. Ghaleb</i> .....	77
<b>A speleothem-based reconstruction of paleoclimate in the Central Zagros region (Iran)</b>	
<i>S. H. Al-Omari, J. E. Andrews, P. J. Rowe, A. D. Marca-Bell, and R. C. Preece</i> .....	78
<b>Paleoclimate reconstruction of the Eastern Mediterranean based on speleothems record and pollen record from nearby marine core</b>	
<i>A. Almogi-Labin, D. Kadosh, M. Bar-Matthews, M. Weinstein-Evron, B. Schilman, and A. Ayalon</i> .....	81
<b>A high-resolution multi-proxy stalagmite record from Mechara, Southeastern Ethiopia: paleohydrological implications for speleothem paleoclimate reconstruction</b>	
<i>A. Asrat, A. Baker, M. Umer, M. J. Leng, P. van Calsteren, and C. Smith</i> .....	83

<b>A paleoclimate reconstruction along Mediterranean East-West transect from 95 ka until the early Holocene as evident from Frasassi Cave (Italy) and Soreq Cave (Israel)</b>	
<i>A. Ayalon, M. Bar-Matthews, G. Kudielka, M. Gilmour, S. Galdenzi, C. Koeberl, and A. Montanari</i> .....	85
<b>Annual resolution climate reconstruction in Ethiopia using multiple stalagmite parameters: cave and instrumental climate calibration</b>	
<i>A. Baker, I. Fairchild, A. Asrat, M. Umer, and M. Leng</i> .....	87
<b>Integrated study of cave drip hydrology and hydrochemistry, and the associated paleoclimate records from North America</b>	
<i>P. A. Beddows, H. P. Schwarcz, R. Zhang, and D. C. Ford</i> .....	91
<b>Palaeomagnetic and palaeontological research in Račiška pečina Cave, SW Slovenia</b>	
<i>P. Bosák, P. Pruner, A. Mihevc, N. Z. Hajna, I. Horáček, J. Kadlec, O. Man, and P. Schnabl</i> .....	94
<b>Anthropogenic impacts on vegetation over the past 350 years in Puzhehei, Yunnan, China, as evident from the carbon isotopic record of stalagmites</b>	
<i>B. Cai, M. Tan, T. Liu, H. Cheng, and H. Liu</i> .....	95
<b>Spatial and temporal variations of rainwater and dripwater geochemistry in Malaysian caves</b>	
<i>K. Cobb, J. Partin, J. F. Adkins, and B. Clark</i> .....	97
<b>New data on the chronology of the Termination II and paleoclimate during MIS 5, based on the study of a stalagmite from Cloşani Cave (SW Romania)</b>	
<i>S. Constantin, S.-E. Lauritzen, and J. Lundberg</i> .....	98
<b>Crystalline fabrics and stable isotope composition of speleothems from cave entrances: examples from SW France</b>	
<i>I. Couchoud, D. Genty, and D. Blamart</i> .....	101
<b>Stable isotope analysis of speleothems developed in archaeological context: contribution to stratigraphic and paleoenvironmental studies of sites. Examples of two pleistocene sequences from South-West France</b>	
<i>I. Couchoud, D. Genty, D. Blamart, M. Gilmour, J.-P. Brugal, A. Debénath, and J. Jaubert</i> .....	102
<b>High-resolution Holocene speleothem records from Soqotra Island, Yemen as a tool for Indian Ocean climate reconstruction</b>	
<i>P. de Geest, E. Keppens, S. Verheyden, H. Cheng, and L. Edwards</i> .....	103
<b>Late Holocene <math>\delta^{18}\text{O}</math> variability in a high-resolution record from a speleothem in Kaité Cave, northern Spain</b>	
<i>D. Domínguez-Villar, J. Martín-Chivelet, R. L. Edwards, and X. Wang</i> .....	105
<b>New age constraints for the last interglacial from Italian speleothems</b>	
<i>R. Drysdale, G. Zanchetta, J. Hellstrom, and T. Fallick</i> .....	109
<b>Empirical orthogonal function analysis of multivariate stalagmite trace element data: Detecting the 1982 El Chichón volcanic eruption</b>	
<i>A. E. Benoit Frappier</i> .....	113

**High-resolution stable isotope climate record from two annually laminated Holocene stalagmites in NW Scotland**

*L. Fuller, A. Baker, I. Fairchild, P. Rowe, A. Marca-Bell, C. Spötl, and D. Matthey* ..... 116

**High-resolution radiocarbon, stable-isotope and trace-element variation in Bahamian speleothems during the last glacial period**

*D. L. Hoffmann, D. A. Richards, P. L. Smart, B. A. Paterson, J. W. Beck, and D. P. Matthey* ..... 119

**Age, duration and structure of the 8.2 ka event in a speleothem from Pippikin Pot, Northern England**

*P. J. Hopley, D.A. Richards, D. L. Hoffmann, P. L. Smart, J. Tindall,  
P. J. Valdes, J. D. Marshall, T. C. Atkinson, and J. W. Beck* ..... 121

**Reconstruction of paleoclimate over the instrumental period using six stalagmites of different hydrological 'species' from two caves in NE Turkey**

*C. Jex, W. Eastwood, A. Baker, and I. Fairchild* ..... 122

**Development of seasonal resolution paleomonsoon proxies in a Chinese speleothem**

*K. R. Johnson, G. M. Henderson, N. S. Belshaw, and C. Hu* ..... 125

**Paleoclimate reconstructions for the Southeastern U.S.A. from speleothems in DeSoto Caverns, Alabama**

*W. J. Lambert and P. Aharon* ..... 128

**The stable isotope and the paleomagnetic records of calcite speleothems in northern Yukon Territory, Canada: their relation with climatic changes during the pre-Pleistocene**

*B. Lauriol, D. Lacelle, and I. D. Clark* ..... 131

**Climate and environmental variability in a mid-latitude savanna: observations from the Cold Air Cave stalagmites, Makapans Valley, South Africa**

*J. Lee-Thorp and K. Holmgren* ..... 132

**Examining speleothem  $\delta^{18}\text{O}$  and  $\delta^{13}\text{C}$  response to precipitation and temperature changes**

*H. Li, C. Huh, D. Yuan, T. Li, and N. Wan* ..... 133

**High-resolution climate variability of northeastern Chongqing, China during 60-70 ka reflected by a stalagmite  $\delta^{18}\text{O}$  record from Xinyan Cave**

*T. Li, D. Yuan, H. Li, J. Wang, X. Wang, J. Qin, M. Zhang, Y. Lin, and Y. Yang* ..... 135

**Paleoclimatic conditions recorded in cave sediments as studied by micromorphology and magnetic anisotropy: Dolganskaya Yama Cave system, Russia**

*L. Lisá, M. Chadima, and H. Oberhaensli* ..... 137

**The comparisons of speleothem  $\delta^{18}\text{O}$  record with historic and instrumental records in Southwest China: Questions regarding climate implications of speleothem  $^{18}\text{O}$**

*Z. Liu, H. Li, and D. Yuan* ..... 141

**Dated speleothems: archives of the paleoenvironment (DAPHNE)**

*A. Mangini, D. Scholz, A. Schröder-Ritzrau, D. Polag, B. Kromer, J. Fohlmeister, C. Spötl,  
M. Isenbeck-Schroeter, D. K. Richter, S. Niggemann, S. Frisia, R. Miorandi,  
W. Aeschbach-Hertig, and T. Kluge* ..... 143

<b>Seasonal changes in the isotopic composition of cave air, water and speleothem calcite in new St. Michaels Cave, Gibraltar: unwanted noise or a tool for decoding speleothem climate records?</b>	
<i>D. Mattey, D. Lowry, R. Fisher, J. Duffet, J.-P. Latin, M. Ainsworth, J. Balestrino, R. Durell, J. McCarthy, and H. de la Paz</i> .....	144
<b>Rainfall seasonality in tropical stalagmites discerned from magnesium and phosphorus partitioning in sub-annual couplets</b>	
<i>V. Murgulet, P. Aharon, and M. G. Bersch</i> .....	147
<b>100 years of vegetation and landscape changes within Wind Cave National Park, South Dakota, USA: a photographic record</b>	
<i>K. Pace-Graczyk and M. Ohms</i> .....	149
<b>Preliminary climatic interpretation of sedimentologic and rockmagnetic data from the cave Peștera cu Oase (Southern Carpathians, Romania)</b>	
<i>C. Petrea, C. E. Panaiotu, V. Horoi, C. Panaiotu, and S. Constantin</i> .....	153
<b>Environmental reconstruction since 2,500 years ago using cave sediments from Belize</b>	
<i>J. S. Polk, P. E. van Beynen, and P. Reeder</i> .....	157
<b>A two centuries long annual record of rainfall and enso variability archived in the oxygen isotope profiles of south pacific stalagmites</b>	
<i>M. Rasbury, P. Aharon, and W. J. Lambert</i> .....	159
<b>The relationships between hydrological conditions in the Eastern Mediterranean and Nile River discharge as evident from terrestrial (speleothems) and marine isotopic records</b>	
<i>B. Schilman, A. Ayalon, M. Bar-Matthews, A. Almogi-Labin, and D. Shriki</i> .....	160
<b>Origin of the cycles from 2000 year to 14 days in paleoluminescence insolation proxy records</b>	
<i>Y. Y. Shopov, G. Tenchov, and D.C. Ford</i> .....	161
<b>Stable isotope compositions of speleothems from Hungary: climate conditions and local variations</b>	
<i>Z. Siklosy, A. Demeny, T.W. Vennemann, J. Kramers, and Sz. Leel-Ossy</i> .....	162
<b>Reconstructing hemispheric-scale climates from multiple stalagmite records</b>	
<i>C. L. Smith, A. Baker, I. J. Fairchild, S. Frisia, and A. Borsato</i> .....	163
<b>Reconstruction of Late Holocene precipitation for West-Central Florida as derived from isotopes in speleothems</b>	
<i>L. R. Soto, and Philip van Beynen</i> .....	166
<b>Four centimeters of flowstone: climate change in a nutshell</b>	
<i>C. Spötl and A. Mangini</i> .....	168
<b>Applications of stalagmite laminae to paleoclimate reconstructions: comparison with dendrochronology/ climatology</b>	
<i>M. Tan, B. Cai, A. Baker, C. Smith, D. Genty, and J. Esper</i> .....	169
<b>Isotopic record of millennial scale climatic variations in a flowstone from the Villars Cave (SW-France)</b>	
<i>K. Wainer, D. Genty, D. Blamart, B. Ghaleb, V. Plagnes, and Y. Quinif</i> .....	173

<i>K. Wainer, D. Genty, D. Blamart, B. Ghaleb, V. Plagnes, and Y. Quinif</i> .....	173
<b>High-resolution stable isotope and elemental ratio records in a stalagmite from Beijing, China: Uncovering the climatic proxies in speleothem</b>	
<i>N. Wan, H. Li, C. You, C. Huh</i> .....	174
<b>Palaeoclimatic events and cycles determined from late Pleistocene to Holocene speleothem <math>\delta^{18}\text{O}</math> and <math>\delta^{13}\text{C}</math> records from New Zealand</b>	
<i>P. W. Williams, D. N. T. King, H. Neil, and J. Zhao</i> .....	176
<b>East Asian monsoonal records in the soda straw of the limestone cave in Korea</b>	
<i>K. S. Woo, K. N. Jo, G. H. Hong, S. H. Kim, and B. C. Suk</i> .....	177
<b>Atmospheric forcing of sulphate in speleothem carbonate</b>	
<i>P. Wynn, I. Fairchild, S. Frisia, A. Borsato, and A. Baker</i> .....	178
<b>A high-resolution climate record over the past 2300 years from a stalagmite of Dongge Cave, Libo, China</b>	
<i>M. Zhang, X. Zhu, Y. Lin, H. Cheng, R.L. Edwards, J. Qin, Y. Yang, and H. Wang</i> .....	179
<b>Various effects of paleoclimate and paleovegetation on stalagmite properties</b>	
<i>X. Zhu, M. Zhang, Y. Lin, J. Qin, and Y. Yang</i> .....	180
<b>Stable isotope stack record of the Villars Cave (SW France) of the last climatic cycle</b>	
<i>D. Genty, D. Blamart, K. Weiner, B. Ghaleb, and Y. Quinif</i> .....	181
<b>Stalagmite reconstructions of tropical pacific climate from Borneo during the last deglaciation</b>	
<i>J. Partin, K.M. Cobb, J.F. Adkins, and B. Clark</i> .....	182
<b>SEA-LEVEL CHANGES</b>	
<b>Cave levels, marine terraces, paleoshorelines, and the water table in Florida</b>	
<i>L. J. Florea and H. L. Vacher</i> .....	184
<b>Sea-level position at ~80 ka based on phreatic overgrowths on speleothems from Mallorca</b>	
<i>B. P. Onac, J. J. Fornós, J. Ginés, A. Ginés, P. Tuccimei, D. W. Peate, and S. Björck</i> .....	189
<b>Sea level change during MIS 5a recorded in submerged speleothems from the Eastern Adriatic Sea (Croatia)</b>	
<i>M. Surić, D. Richards, D. Tibljaš, and M. Juračić</i> .....	192
<b>FOSSIL REMAINS IN KARST AND PALEOCLIMATE</b>	
<b>Dated paleontological cave sites of Central Europe from MIS 5 to MIS 8</b>	
<i>D. Döppes, W. Rosendahl, and S. Kempe</i> .....	196

**Paleoclimatic significance of the mammal associations from Upper Pleistocene karst deposits of Dobrogea, Romania***E. Știucă, A. Petculescu, and R. Arghir* ..... 199**The paleoenvironmental significance of some Late Pleistocene (Middle Valdai) *Diptera* puparia (*Callyphoridae*) from the Emine Bair Khosar trap-cave (Chatyrdag, Crimea)***M. M. Vremir and B. Ridush* ..... 201**THEORETICAL AND APPLIED KARSTOLOGY (OFF-TOPIC CONTRIBUTIONS)****Natural and anthropogenic hazards in the Srebarna karst wetland (Bulgaria)***D. Angelova* ..... 207**Preliminary study of soil tillage erosion in karst mountain area of China***W. Fu, H. Jia, W. Zhang, Z. Zhang, and J. Zhao* ..... 209***Ursus spelaeus* reloaded***I. Viehmann* ..... 210**Eutrophication process in the Plitvice Lakes, Croatia, as a consequence of anthropogenic pollution and/or natural process***N. Horvatinčić, J. Barešić, B. Obelić, Ines Krajcar Bronić, and J. L. Briansó* ..... 211**Karst caves fillings and neotectonics study in Apulia, Southern Italy***V. Iurilli, G. Mastronuzzi, G. Palmentola, and G. Selleri* ..... 215**An approach to the karst groundwater resources assessment***I. Jemcov* ..... 217**Karst: hydrogeology and development of groundwater in the Mediterranean area***P. E. LaMoreaux* ..... 219**Geoelectrical investigations by means of resistivity methods in karst areas in Romania***M. Maftciu, H. Mitrofan, and I. Povară* ..... 220**Hydrogeological characteristic of some deep siphonal springs in the Carpato-Balkan mountain arch (Eastern Serbia)***S. Milanovic* ..... 224**Geology and dynamics of underground waters in Jiul de Vest – Cerna Valley/Baile Herculane (Romania)***G. Ponta and N. Terteleac* ..... 227**Simulation of spring discharge by use of a multivariate ARMA model. Application to the Motru Sec – Baia de Aramă karst system, Mehedinți Mountains, Romania***A. Rotaru* ..... 231**Karst denudation cycles in Bulgarian karst***Y. Y. Shopov, A. Benderev, and S. Shanov* ..... 232

**A characterization of the epikarst features of the Ozello karst plain**

*E. Spencer Fleury and R. Brinkmann* ..... 233

**Measuring and monitoring the impacts of large dam on karst environment**

*Z. Stevanovic and A. Maran* ..... 234

**Cryogenic formation of carbonate in caves – a review**

*K. Žák, B. P. Onac, and A. Perşoiu* ..... 238

**Study of soil acidity and its influencing factors in a karst mountain region of Chongqing, China**

*Z. Zhang, D. Yuan, W. Fu, H. Zhang, and K. Xia* ..... 242

**Groundwater vulnerability and its contamination potential analysis of Qianjiang County, Chongqing City**

*Z. Zhu, D. Yuan, and Y. Jiang* ..... 243
